Forecast For West Midlands
Issued by Met Office Exeter
at 0400 on Saturday 09 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Foggy and icy start, remaining dry for all.

Today:
A frosty start, with risk of ice remaining throughout. Some persistent fog patches, but an otherwise calm and dry day with sunny spells in the north, and murky low cloud clearing later in the south. Feeling cold. Maximum temperature 4 deg C (39 deg F).

Tonight:
A cold evening and night. Low cloud encroaches southwards upon the region, and winds gradually pick up, yet remaining dry. Minimum temperature -3 deg C (27 deg F).

Sunday:
Lingering fog and patchy light rain in the north of the region, with brighter spells in the south. Becoming mostly dry and clear by the afternoon. Light winds throughout. Maximum temperature 5 deg C (41 deg F).

Outlook for Monday to Wednesday:
A murky outlook with temperatures gradually turning mild. Cloudy and breezy on Monday, with outbreaks of rain in the north. Extensive drizzle Tuesday becoming heavy overnight, mostly clearing for Wednesday.
